

Environmental Management Policy

Elite Tilt Panels recognise that our activities have the potential to interact with the environment and aim to minimise these interactions by integrating environmental considerations across all aspects of our business. We also recognise the requirement to comply with all applicable legislative requirements governing protection of the environment.

As part of our commitment to the environment we will:

- Implement and maintain an effective Environmental Management System (EMS);
- Communicate our Environmental Policy to all employees, contractors, and customers;
- Continuously improve our Environmental Management System through periodic reviews and site audits;
- Effectively manage our business in a way that minimizes our impact on the environment to achieve a sustainable use and reuse of natural resources;
- Comply with all relevant Legislative and other requirements;
- Promote environmental awareness with our employees, contractors, and customers through regular training;
- Strive to be a leader in Environmental Management for our industry.
